**The Ultimate Bit is Here!**

# Diamond Drill Bits

Apply to smooth and hard stone, glass or tiles Cutting edge and diamond particles

## Benefits:

- Special drill bits for stone and glass. It can drill, cut and polish quartz brick, ceramics, marbles, and tiles.
- Dry cutting.

Smooth and steady cutting, flatness of the incision after cutting, no chipping etc. Diamond drills are super durable, Hi-drilling speed, longlife. It has good design for excellent dust removal.

## Special Design

Automatic water inlet cooling design

Diamond Drill →

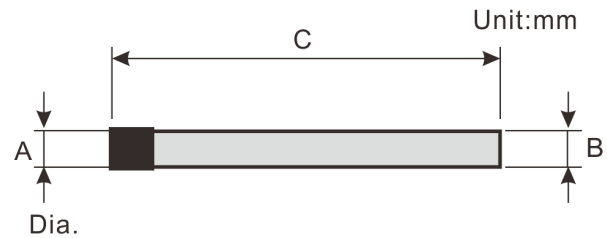

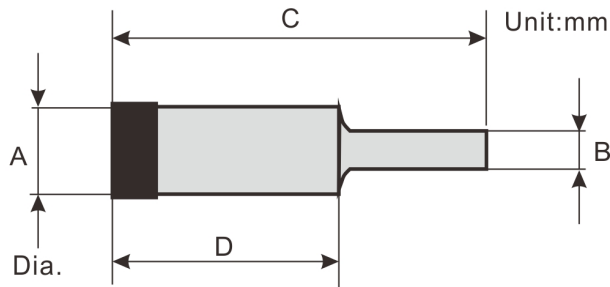

Special plating process ensures the diamond is firmly attached along with the circumference. Longlife time. The diamond drill is outstanding and excellent drilling performance.

## Diamond Drill Example of case :

Product life: Ø6mm approx					
Material	Thick. 10mm Marble	Thick. 10mm Granite	Thick. 10mm Quartz brick	Thick. 10mm Wall tiles	Thick. 10mm Glass
Drilling holes	10 holes	10 holes	10 holes	30 holes	30 holes

## Specification :

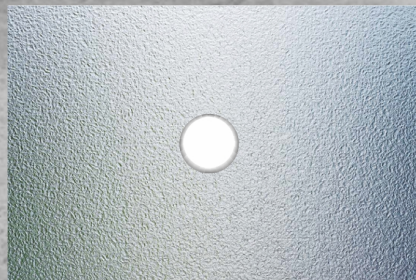

Size	A $\pm$ 0.2	B $\pm$ 0.2	C $\pm$ 1	D $\pm$ 1
Ø10	10	8	65	36
Ø12	12	8	65	36
Ø14	14	8	65	36
Ø16	16	8	65	36
Ø18	18	8	65	36
Ø20	20	8	66	36

Size	A $\pm$ 0.2	B $\pm$ 0.2	C $\pm$ 1
Ø4	4	3.5	50
Ø5	5	4.5	50
Ø6	6	5.3	50
Ø8	8	7.2	65

## Applications :

Granite thickness 29.5mm

Glass thickness 8mm

Wall tiles thickness 9.5mm

## Precaution :

- Slow down the drilling speed
- Turn off vibration mode
- Need water while drilling
- Add more water will be better
